

TROLLEYS (GEARED TROLLEY & PLAIN TROLLEY)

0.5 ton to 10 ton for Chain hoist

HOOK SUSPENSION TYPE

The chain hoist and trolley can be connected simply by inserting the top hook into the hole of the trolley suspension plate. The most suitable wheels and wheel pitches give the trolleys exceptionally small minimum curve radii.

We also manufacture trolleys for 10 ton and larger capacities, please ask your dealer for further information.

COMBINATION WHEELS FOR I & H-BEAMS

The 0.5 to 5 ton trolleys are equipped with I & H-Beam combination wheels that will run smoothly on either flat or taper beams.

CONVENIENT ADJUSTABILITY

The trolley can be adjusted to 3-different beam widths with the adjusting collars. Non-standard beam widths are also available.

GEARED TROLLEY (GT-5)

GT-5 Diagrammatic only

PLAIN TROLLEY (PT-5)

PT-5 Diagrammatic only

STANDARD SPECIFICATIONS: GT-5 Geared Trolley & PT-5 Plain Trolley
